

Product Name:	SureSeal® 636HF
Product Type:	One piece, three-ply coextruded liner.
Material:	Polypropylene skin top and bottom with foamed polyolefin core.
Composition:	Core and outer skin fusion. Closed cell foam core of LDPE is sandwiched within polypropylene. This results in a chemically fused, single polymeric product.
Composition Benefits:	Symmetrical construction - either side serves as the liner face. Single polymeric product - no ply-separation.
Application:	Recommended for sealing hot filled products which may be subjected to temperatures up to 190° F.
Performance Values:	Excellent sealability and resiliency.
Thickness/Width:	Available in thicknesses of .030", .035", and .040" (+/- .005") Widths from 1.25" to 36" (+/- .03125")
Density:	36 < 40 lbs/ft ³
Color:	Custom colors available upon request.
